

**JUSTRITE DANGEROUS GOODS &
SAFETY STORAGE CABINETS**

Flammable Safety Storage Cabinets provide a safe, close-by, secure and time-saving method for storing all types of dangerous chemicals and help you to maintain good housekeeping practices. All Justrite cabinets are fire tested to comply with the FM rating, something no other cabinet sold in Australia can claim, they also not only comply, but exceed Australian Standard AS 1940. They help companies by providing product near to the workplace thus avoiding the time consuming and often risky practice of collecting from an outside storage facility.

- Fully welded construction - 1.2mm steel - Double wall - 40mm thermal barrier
- Superior electrostatic high gloss powder coat paint finish / Dual vents with built in flash arresters
- Close fitting, sequential self closing and latching doors / 3 point locking mechanisms
- Leakproof fully welded 150mm deep containment sump / Shelves with built in troughs to contain spills
- Adjustable shelf height increments to maximise space storage
- Adjustable levelling feet to prevent doors binding
- Fire tested, FM Approved exceeds AS1940 compliance

INDUSTRIAL SAFETY CAN STORAGE

CORROSIVE STORAGE CABINETS

Corrosive Substance Storage Cabinets have a Polyethylene tray on each shelf to collect any accidental spillages. Designed to withstand fire these cabinets provide a safe environment to store most corrosive chemicals. If you need to store chemicals such as Phenol, Nitric Acid, Sulphuric Acid or other substances with highly corrosive vapours, we suggest you look at the all Polyethylene Cabinets.

Storage Cabinet
