## Flammable Compressed Gas Cylinder Locker

The “No Rust” Solution to safely & securely storing LPG and compressed gas cylinders!

Cylinder Lockers offer superior features that make these units extremely durable and easy-to-use.

Constructed of 100% welded aluminium to resist outdoor elements, they will not rust, corrode, or discolour.

Expanded 7mm thick Aluminium panels are the strongest in the industry offering additional resistance to tampering.

Welded security lug on front door panel accepts a padlock (not included) for extra security.

Heavier gauge aluminium mesh and extruded (not bent) frame add rigidity.

All models have an exclusive solid aluminium roof panel that slants toward the back to shed water and ice.

Twelve modular styles provide an efficient attractive solution to expanded, multi-cabinet storage.

A pre-drilled hole at each corner accepts 12mm anchor bolts for maximum security and stability.

Cylinders stay clear of ground with strong floor plate on all storage lockers.

Aluminium’s long-lasting durability keeps your gas cylinders safe and your property looking clean.

Ships fully assembled to save on set-up time.

Comes complete with full / empty cylinder decals & danger no smoking within 3 metres signage

### PBA Safety Code – 23008V

Flammable Compressed Gas Cylinder Locker

Complies with AS4332 – 2004

Stores up to 5 - 10 Vertical Compressed Gas Cylinders and 8 Vertical LPG Cylinders

External Size:

W 1510 x H 1800 x D 815mm

Holds:

9 only G Size Hydrogen Cylinders
