JUSTRITE SAFETY STORAGE CABINETS

PBA SAFETY - INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS!

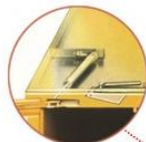

JUSTRITE CABINETS EXCEED AUSTRALIAN STANDARD COMPLIANCE AS1940

Justrite Cabinets are the only cabinet that have been fire tested and rated by FM Global (Factory Mutual performance standard that is recognised by Insurance Companies) the cabinets are rated at 10 minutes and the internal temperature shall not exceed 163 celcius.

"Something no other cabinet in Australia can claim."

Haz-Alert Reflective labelling provides high visibility in the dark under fire conditions or power outage when illuminated by flashlight beam. Patent Pending.

Patented concealed self-close mechanism provides obstruction free access to top shelf space. Self-indexing doors guarantee they will close in sequence and assure a tight closure from top to bottom.

Rounded safety corners on doors reduce accidental nicks or cuts and potential hand injury.

"Ask for the mark of quality"

(sample) FM Certification Decal

Minimal air-gaps provide better protection.

Double Wall thermal barrier 1.2mm sheet steel thickness with 40mm wall spacing.

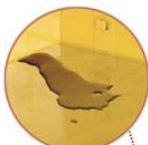

Easy Close, Self latching doors.

Fully welded (not riveted) construction holds squareness for longer life, offering greater protection in a fire since air gaps are reduced.

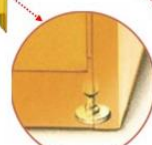

Continuous piano hinges provides smooth closure.

Durable and chemical-resistant, lead-free powder-coat paint finish, inside and out, retains high gloss look and minimizes the effects of corrosion.

Exclusive U-Lock Padlockable Handle. Optional padlock allows for extra security and key-coding multiples for convenient access. Flush paddle handle with slip resistant grip offers easy fingertip operation and reduces dangerous "catches" from passing traffic. Double key set included for keyed lock. Patent Pending. Padlock not included.

Welded shelf hangers interlock with shelf to offer maximum "no slip" stability.. And no flimsy brackets to lose.

Stainless Steel, three point bullet self-latching system provides easy, fail-safe, positive door closure with increased heat resistance.

Fusible links hold doors wide open and melt at (74 C) for Automatic closure.

Built in grounding connector (on outside side panel) for easy grounding.

Adjustable leveling feet for stability on uneven surfaces.

Exclusive SpillSlope safety shelves directs spills to back and bottom of leak proof sump. Heavy gauge galvanised steel shelves are bi-directional and easily adjust on 76mm centres for versatile storage. Each cabinet is provided standard with 150mm deep sump to contain spills or leaks within the cabinet.

All types of cabinets have the same external measurements.

The internal measurements shown are for Flammable, Corrosive, Toxic and Pesticide cabinets.

For details on Organic Peroxides and Oxidising Agents please contact customer service.

JUSTRITE SAFETY STORAGE CABINETS

PBA SAFETY - INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS!

Flammable Storage Cabinets provide a safe, close-by, secure and time saving method for storing all types of dangerous chemicals and help you to maintain good housekeeping practices. Fire Tested, FM Approved exceeding AS1940 compliance

FLAMMABLE STORAGE CABINETS

OUTDOOR WEATHERPROOF FLAMMABLE STORAGE CABINETS

JUSTRITE SAFETY STORAGE CABINETS

PBA SAFETY - INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS!

Corrosive Storage Cabinets have a Polyethylene tray on each shelf to collect any accidental spillages. Designed to withstand fire these cabinets provide a safe environment to store most corrosive chemicals. If you need to store chemicals such as Phenol, Nitric Acid, Sulphuric Acid or other substances with highly corrosive vapours, we suggest you look at the Polyethylene / Polypropylene Constructed Cabinets. **AS 3780**

CYLINDER STORAGE LOCKERS

PBA SAFETY - INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS!

The “No Rust” Solution to safely & securely storing LPG, compressed gas cylinders & aerosol cans!

Cylinder Lockers from PBA Safety are Australian made offering superior features that make these units extremely durable and easy-to-use.

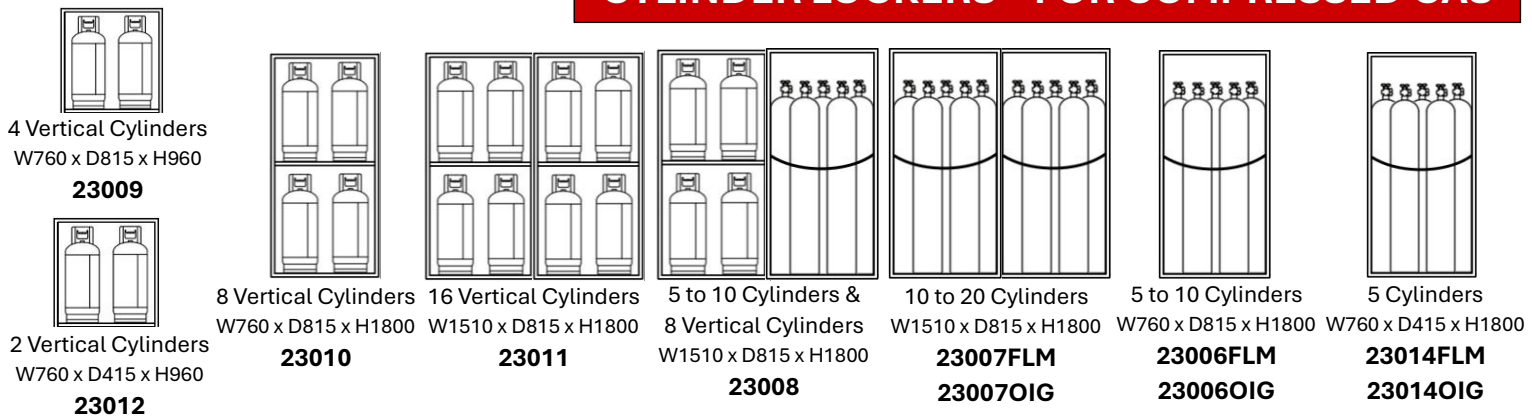

Constructed of 100% welded aluminium to resist outdoor elements, they will not rust, corrode, or discolour.

Expanded 7mm thick Aluminium panels are the strongest in the industry offering additional resistance to tampering.

Welded security lug on front door panel accepts a padlock (not included) for extra security. Heavier gauge aluminium mesh and extruded (not bent) frame add rigidity. All models have an exclusive solid aluminium roof panel that slants toward the back to shed water and ice.

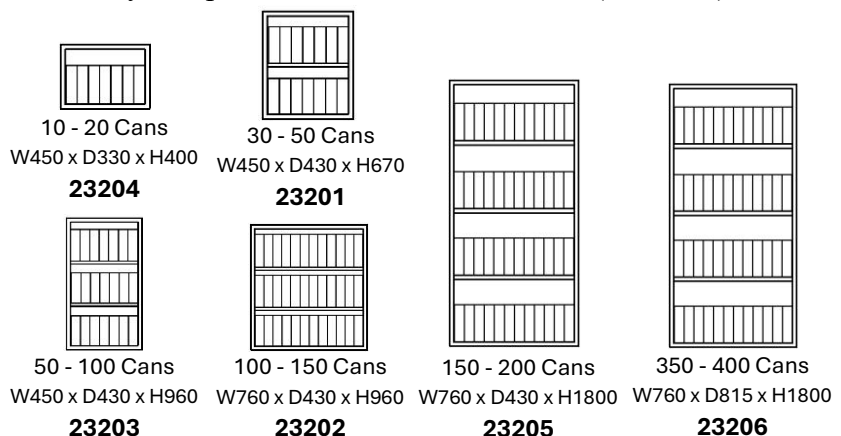

CYLINDER LOCKERS – FOR COMPRESSED GAS

CYLINDER LOCKERS – MODULAR STYLES TO CHOOSE FROM

- Heavy duty aluminium construction
- Available in custom sizes to suit your requirements
- Bolt down provision for added security
- Fully compliant to Australian Standards (AS 3833)

ECO-POLYBLEND SPILL CONTAINMENT SYSTEMS

PBA SAFETY - INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS!

EcoPolyBlend Spill Pallets are made from 100% Recycled Polyethylene to keep accidental spills under control, resisting unwanted chemical exposure from hazardous acids, caustics, and solvents. Featuring seamless, robust construction that eliminates leaks and include removable self-locating

grates that lift off for quick clean up.
You will meet EPA requirements if a bund holds 110% of the largest drum being placed on the spill pallet or 25% of the total volume stored.
